1/17/2014	SB1400101	3800 RESERVOIR RD NW	We will conduct both geotechnical and environmental investigations at the subject property. The environmental scope will include the installation of three 2-inch monitoring wells, using hollow stem auger drilling techniques. The wells will be installed to an estimated depth of 60 feet with an approximate annulus of 4.25 inches. In addition to the wells, 12 soil borings will be completed to a depth of 25 feet below ground surface. The soil borings will be 2-inch in diameter and will be abandoned the day they are drilled. For the geotechnical scope, three soil borings will be advanced to depths of 9 to 15 feet below ground surface using hollow stem auger drilling techniques. The diameter of the geotechnical borings will be approximately 5 inches and the geotechnical borings will be abandoned on the same day as drilled.
