# INSTRUCTIONS

To assure compliance with **DCMR Title 11 – The Zoning Regulations of the District of Columbia**, please complete this form and submit it to the Zoning Counter Station in the Permit Center, along with your building permit application, plans, plats, and specifications for the installation or erection of an antenna structure in the District of Columbia.

<b>1. Address</b>	Enter the principal address of the premises where the antenna will be installed.
<b>2. Square</b> <b>3. Lot(s)</b>	Enter the square and lot(s) as shown on the DC Surveyor's Building Plat.
<b>4. Zone</b>	This entry should match the zone classification entered on the Building Permit Application by the Zoning Engineer in the Permit Center.
<b>5. Antenna Type</b>	Check each type of antenna included in the Permit.
<b>6. Existing</b>	Enter the number of existing antennas if applicable.
<b>7. Proposed</b>	Enter the number of proposed antennas if applicable.
<b>8. Replacement</b>	Enter the number of this antenna type that is being replaced.
<b>9. Roof Mounted</b>	Enter the number of this antenna type to be roof mounted.
<b>10. Building Mounted</b>	Enter the number of this antenna type to be building mounted.
<b>11. Ground Mounted</b>	Enter the number of this antenna type to be ground mounted.
<b>12. Accessory Equipment</b>	Check if an equipment cabinet, equipment platform or screening including a stealth screen or stealth pole exist, will be expanded or proposed at this site.
<b>13. Existing</b>	Check if the equipment cabinet or platform is an existing feature.
<b>14. Proposed</b>	Enter the mounted height of the antenna.
<b>15. Replacement</b>	Check if the equipment cabinet or platform is a replacement feature.
<b>16. Roof Mounted</b>	Check if the equipment cabinet or platform will be roof mounted.
<b>17. Building Mounted</b>	Check if the equipment cabinet or platform will be building mounted.
<b>18. Height</b>	Building height is measured at the center front of the building from grade or from the curb opposite the front. The mounted height for building mounted antennas and equipment is measured from the center front from grade or opposite the curb if mounted on the exterior wall or from the roof if mounted on a penthouse or intermediate roof level.
<b>19. Grade to Roof</b>	Enter the distance in feet from the grade in the middle of the front to the roof level.
<b>20. Curb to Roof</b>	Enter the distance in feet from the curb opposite the front middle to the roof level.
<b>21. Roof to Parapet</b>	Enter the distance in feet from the roof to the top of the parapet.
<b>22. Stealth Structure</b>	Check if a stealth pole, monopole or lattice tower is included in this permit.
<b>23. Existing</b>	Check if there is an existing stealth pole, monopole or lattice tower and indicate the number of existing features.
<b>24. Proposed</b>	Check if there is a proposed stealth pole, monopole, or lattice tower for this installation and indicate the number proposed.
<b>25. Permit Checklist</b>	Check each item to indicate that all of the required documentation is included in this Permit. Enter the sheet number for the elevations and plans.
