

January 23, 2013

I read the announcement that calls for comments on the proposal to include COMNET in the IECC. I do not recommend proposing COMNET to the 2015 IECC. COMNET is not an ANSI consensus standard and is unlikely to be approved for inclusion in the 2015 IECC. Until COMNET comes under a true consensus standard process and is written in code language, it is not meeting ICC requirements.

Regards,
